HI, I'M

Emeline Zitte

AI-NATIVE OPS BRAIN ✳

I turn messy, manual processes into *systems people actually use*: customer success, operations and the tools that hold them together.

AI · SUPPORT

An AI support agent, built from scratch

Recurring questions were eating the team's time. I wrote the knowledge base, then built the agent end to end with Claude Code.

- ~30 entries across 4 categories
- Answers only above a 70% confidence threshold
- Below it, a Slack alert so a human answers and the knowledge base improves

PRODUCT · ZERO TO ONE

A new SaaS product, from zero

With the leadership team, I built the customer side of a new platform: onboarding, training, support and retention, for 900 to 1,200 active B2B users a year.

ACCOUNT · CHANGE

A key account through a full platform switchover

Main point of contact for Closers Group while their teams moved to a new platform: plan, training, user communication and fast fixes with developers.

Intercom · Linear · Loom

ONBOARDING · LEARNING

Onboarding at scale

I structured an LMS with courses and validation quizzes, recorded video guides, and ran cohorts of up to 150 people a week, so nobody started alone.

AI · PRODUCT

An AI agent that answers for me

Recruiters can ask it anything about my background. Visitor form, 9-question sessions, Slack alerts when it can't answer, and a privacy policy.

TOOLS · VENDORS

A tool stack the team actually used

Full admin of the OnOff telephony console, connected to Pipedrive and Intercom. I negotiated volume discounts with OnOff and Pipedrive, and ran billing and monthly reconciliation.

The *path*

Design, then sales, then operations. Each step taught me that details decide whether people use what you build.

Co-Founder, Operations & Client Systems

Polyma · marketing & operations consultancy · polyma.ai

- Co-run the company: client delivery, projects and follow-ups, end to end
- Built our Notion invoicing system, with an AI automation that applies EU cross-border VAT rules

2022 – 2026

Operations & Customer Success Manager

Consumedias (Talented Closers) · talentedclosers.com · SaaS scale-up · remote

- Built a new product from zero with leadership: onboarding, training, support, customer support and retention
- Reported directly to company leadership and partnered with one of the associates on operations
- Ran the tool stack, billing and the key account switchover; recruited and led a team of 4 to 10
- Mission ended in September 2026, once the platform and its support were fully automated with AI

2021 – 2022

Closer & Office Manager

Consumedias · Malta

- Generated around €225K in sales a month: €750 average ticket, about 15 sales a day
- Ran the office: hiring, onboarding, leave, payroll, and communication with accountants and legal
- Managed a team of 8 to 12

I joined to understand how sales really works and how it scales. I found a real appetite for operations, problem solving and data, which led straight to building the next product.
